A QUESTION FOR THE BOARDROOM

You own the code. Can you leave the model?

The portability rehearsal

CTO / procurement

THE FIELD TEST

Choose a held-out task

Use a permitted task with a quality gate and a time limit. Keep the task constant.

THE FIELD TEST

Swap the dependency

Change the adapter in a test environment. Record what besides the model required work.

THE FIELD TEST

Reprice the exit

Compare review time, cost per accepted task and recovery. Keep unresolved dependencies in the agreement.

TAKE IT TO THE MEETING

What would your next provider inherit besides a repository?

The decision guide is free at otomat.ai/insights.
